mixtures chapter 5 elements compounds Flashcards and Study ...

All the states of matter (solid, liquid, gases) can combine to form mixtures. It can be concluded that almost everything in our vicinity is nothing but a mixture. For example, the food we eat is a mixture of ingredients, the atmospheric air we breathe is a combination of gases and the fuel we use in locomotives is a heterogeneous mixture.

Chapter 3: MATTER - PROPERTIES AND CHANGES, Section 3 ...

We will be changing matter by melting, evaporating, and dissolving to prove that although the physical appearance has changed, the same amount of matter still exists. This is covered in standard 5-PS1-2: Measure and graph quantities to provide evidence that regardless of the type of change that occurs when heating, cooling, or mixing substances, the total weight of matter is conserved.
