A distinguishable trait of Mexico's culture is the mestizaje of its people, which caused the combination of Spanish influence, their indigenous roots while also adapting the culture traditions from their immigrants. Peru. Peru is an exemplary country of multiculturalism, in 2016 the INEI reported a total population of 31 million people. They ...

Multiculturalism - Wikipedia

Bourdieu (1984) differentiates between 'high' culture, associated with the arts, and 'popular' culture, but the clarity of this distinction has been questioned in much recent research (e.g. Bennett et al., 2008; Prieur and Savage, 2011; Warde and Gayo-Cal, 2009). In particular, it has been argued that elite culture has become more ...

A New Model of Social Class? Findings from the BBC's Great ...

Since it is clear that problematic sexist values can distort science (see the examples discussed previously in section 2) much of the work of feminists exploring the role of values in science focuses instead on the distinction between legitimate and illegitimate uses of values, and also on the legitimacy of the values themselves.

Feminist Perspectives on Science (Stanford Encyclopedia of ...

Social constructionism is a theory of knowledge in sociology and communication theory that examines the development of jointly constructed understandings of the world that form the basis for shared assumptions about reality. The theory centers on the notion that meanings are developed in coordination with others rather than separately within each individual.
