Appendix II-ATA-specified documents. This appendix outlines the architecture imposed on technical manuals by the ATA 100 specification, and analyses some of the related boundary and granularity problems which effect manual navigation. The generic ATA-specified technical manuals have a wide scope: they cover all instances of the-engine and are distributed to all customers.

Chinese ATV Owners / Repair Manuals

ATA 100 contains the reference to the ATA numbering system which is a common referencing standard for commercial aircraft documentation. This commonality permits greater ease of learning and understanding for pilots, aircraft maintenance technicians, and engineers alike. The standard numbering system was published by the Air Transport Association on June 1, 1956.
